

Account & Billing — plans, trials, and keeping access on

Simple, honest billing. Here's how the trial works, how to manage your plan, and how to get access back if a payment ever fails.

patchforge.makerfoundryco.com · a Maker Foundry tool

1 Your free trial

New accounts start with a **7-day free trial** with full access — design, save, and export the whole time. You're only charged when the trial ends, and you can cancel anytime before then at no cost.

2 Choose a plan

On the plan screen, pick **monthly**, **yearly** (a discount versus monthly), or **lifetime** (pay once). Checkout is handled securely by Stripe. You can switch monthly ↔ yearly later from the billing portal.

3 Manage billing

Open **Billing** from the account menu to update your card, switch plans, download invoices, or cancel. Everything runs through the secure Stripe customer portal.

4 If a payment fails

If a charge fails, access pauses right away and PatchForge sends you to a **recovery screen** to update your card — your subscription and all your designs stay exactly as they were. The moment the payment goes through, access turns back on automatically. There's no separate "grace period" to track; one card update restores everything.

Because your subscription is never cancelled on a failed payment, you keep your plan tenure and trial history — just update the card and you're back in.

Need a hand?

Email patchforge@makerfoundryco.com and we'll get back to you within one business day.

Straightforward billing, uninterrupted work.
